HOMES AND HOUSING

RICHARD ADAMS

TIME	TRANSCRIPT
00.00 – 00.08	Some of the houses in Lancashire Road had two bedrooms, but we were number 17 – was the first of the ones with only one bedroom.
00.08 – 00.25	And it was very, very small. The front door opened straight into the reception room, you might say, and behind that there was a kitchen, and that's all there was: just the kitchen and stairs went up between the two to a single bedroom, yeah, with my mother, my father, myself and my sister.
00.25 – 00.45	The toilet was down the end of the garden. No bath – a tin bath – no hot and c... hot water: cold water, and that was all. Well, if you wanted a lot of water there was a copper there, which we used to feed with wood, which we used to get from the back of Sainsbury's, where they used to throw the old boxes and stuff out, and all the kids used to scramble for it.
