

SET TO STUN

Sci-fi plucks us out of our daily lives and drops us in 'strange new' worlds. This exhibition is about the people who create these worlds. We're celebrating the work of set designers, model makers, prosthetic makeup artists, composers and many more – unsung heroes who've captured the imaginations of millions of viewers. With its incredibly rich history of making iconic sci-fi TV and film, West London is at the heart of our story.

Join us on a voyage of exploration through the museum!

1 Learn about West London's stellar history of creating sci-fi for film and TV, explore the set of an alien planet (watch out for the Robot of Death), and discover what space smells like.

2 Meet the Dalek who ran riot in a Hammersmith school.

3 Admire our grand gallery of monster portraits in this showcase of work by Delamar Academy's Advanced Prosthetics graduates.

4 Discover how special effects experts use shop bought toys.

5 Design your own sci-fi models, be amazed by our interactive motion capture experience, learn how special effects were done before the days of digital, and enjoy some classic Doctor Who memorabilia.

6 Meet Marvin the Paranoid Android (don't worry he's in a soundproof case).

7 From light sabres to a themed cookie jar, discover the story of Ealing's own Jedi Robe, the world's greatest supplier of Star Wars merchandise.

8 Wakanda forever! Marvel at London's cosplayers and their homemade costumes.
